

Manager's Mutterings

Good to see Lowesby Farms back in the market with 54 fine Limousin and British Blue cattle in the stores. A big crowd present at ringside ensuring a very good trade prevailed. Top price was £1,055 for some 15 month old fit heifers and £1,010 for 12 month old steers at £1,010.

On the back of yesterday's success, Lowesby Farms has booked in two further sales over the next few weeks. On the 14th February they have 60 x 9-12 month old Limousin & British Blue steers and the following week on the 21st February 60 x 9-12 month old heifers.

Next week we have a quality entry from Jack Peacock of Norfolk with 25/30 9-10 month old Limousin steers.

The prices in the prime cattle were again good, but numbers down with many of our customers filling up with store cattle and not able to attend because of the 6 day standstill. It is about time the interpretation of this regulation was amended in England and Wales to follow the more logical approach in Northern Ireland where, as long as the cattle you have bought are isolated from the rest of the farm, the six day standstill only applies to these cattle and not the whole herd. The current interpretation is especially illogical if you are selling fat cattle through the TB exempt section. Barren cow numbers were good and at present in high demand.

Tom had similar numbers of sheep forward with a fair trade throughout.

A reminder that pig sales are currently only on first and third Tuesdays of each month. We did have 20 pigs in yesterday which we were able to find good buyers for, but we have concluded that holding sales on fifth Tuesdays is too irregular to guarantee a good market.

Finally, a request for sellers to let us know what they are planning to bring each week. The earlier you are able to provide us with the information, the more we are able to promote your stock to potential buyers. We will be aiming to do more of this throughout the year.
